I feel as if that the judge Commissioner didn't treat me & my family fairly. My grand daughter were supposed to be adopted out to family but the judge Commissioner did not allow it to happen there was family wanting and was willing to take in all three children. The mother of all three was present at the court date 9 months ago had a home for children and also doing the requirement that CPS wanted her to do to get children back in full custody. Judge Commissioner made false accusation stating he miss placed the paper work that the grand father faxed him prior to the court date. It must be something done and another dependency hearing on the case because I feel as if we were not treated fairly in the court building. There a host of witnesses even if I just have Grand father right to visit my grand children. I'm happy with that. I will fight till the end.
