COMMISSION ON JUDICIAL CONDUCT

Disposition of Complaint 11-071

Complainant: No. 1415110494A

Judge: No. 1415110494B

ORDER

The complainant alleged that a municipal court judge mishandled his dispute resolution hearing and was biased because of a conflict of interest involving the opposing party. The commission reviewed the allegations and found no evidence of ethical misconduct on the part of the judge. The complainant did not agree with the way the judge conducted the hearing but did not actually raise any allegations of ethical misconduct, and there was no evidence that the judge had a conflict that would have required his disqualification. Accordingly, the complaint is dismissed in its entirety pursuant to Rules 16(a) and 23.

Dated: June 28, 2011.
