Complainant:

ORDER

July 30, 2024

The Complainant alleged improper legal rulings by a superior court judge, now retired, hearing a criminal case.

The role of the Commission on Judicial Conduct is to impartially determine whether a judicial officer has engaged in conduct that violates the Arizona Code of Judicial Conduct or Article 6.1 of the Arizona Constitution. There must be clear and convincing evidence of such a violation in order for the Commission to take disciplinary action against a judicial officer.

The Commission does not have jurisdiction to overturn, amend, or remand a judicial officer's legal rulings. The Commission reviewed all relevant available information and concluded there was not clear and convincing evidence of ethical misconduct in this matter. The complaint is therefore dismissed pursuant to Commission Rules 16(a) and 23(a).

Copies of this order were distributed to all appropriate persons on July 30, 2024.

judge retired in but came right out of retirement same year ? the judge has a duty to be an overseer of the court and weed out injustices as this is the oath they swear by. the case was dismissed because the case was submitted by bogus police who never arrived to a preliminary hearing and instead of moving forward the judge at the time removed my case to rule 11 knowing there was no information or actual physical complaint filed by police. judge and got the case and did the same thing stall and prevent me from complaining to the proper agencies.

judge then sentenced me knowing that the case was double jeopardy and should have tossed the case out instead he accepted a plea knowing the case had no information filed. this is a basic function of the judge and he failed miserably due to inside information and bribes paid to him. he was after his fraudulent held in his sons name or a family members name but under my account. all the attorneys who represented me have failed and acted against my best wishes and this case is a shining example of the travesty of justice this state has made me endure for greed of the dollar bill.

- is affiliated with working inside information and allowed to place me on rule 11 as well as was the judge who did a telephonic hearing when recharged the case under double jeopardy and was quashed by 2 judges and another yet knew this and still accepted the plea and cemented a double jeopardy conviction against me through lies misrepresentation of the facts and coercion. i am just now able to file this complaint due to being stuck in a prison cell being tortured while these officials who swore an oath ran around committing fraud and power of attorneys totake back thier ill gotten funds stuffed in my account. the truth is comming out and i deserve some answers and these judges should be arrested for treason and fraud and violation of civil right under color of law.

this complaint should require you to look through many cases affiliated with my name and can assist in providing documents of cases these judges and attorneys have connections to.

also judge in case where i was targeted days earlier for protesting covid restrictions in and arrested by the same officer in uniform as in uniform days later for a dui i wasnt guilty of and had a rental i was in they said was stolen.

no police reports from the jurisdiction of were ever provided in the case to attest the car was actually stolen or used without authorization. the case in was tossed due to the misconduct and believ that this case needs to be looked into as well as the pages of cases tied to my name and information or variations of my name to get into and clear the real estate holding which have been completed so far. this is a far reaching conspiracy with lots of influence and needs to be made right because i didnt deserve spending the last years in prison while judges police and people who swaer an oath violate my rights under color of law and authority. this happened in my case
