I presented my case. This judge was rude, condescending + short tempered when submitting my evidence. He was dialect of judicial duties. He was bias against me and my witnesses. He just don't listen to me but listened to defendant. He was more conduced to the defendant because of their shared ethnicity. They (judge + defendant) was talking to one another after I left the courtroom. I believe that this action could affect the outcome of this case, the defendant to present falsified evidence which not vet for its accuracy. He challenged me at every turn when I submitted evidence. This is why I don't trust the court system which work against

The judge questioned me
about my receipt but never
asked the defendant about proof
concerning receipts ~~proof~~ proving
that ~~the~~ alleged repairs were
completed.
